Pewter

Hearthstone Gray

Silver Stone

Chestnut - Shown on cover

Highland Brown

Majestic Shake

Weathered Wood

Copper Canyon

Morning Harvest

HP42[®]
technology

Start enjoying the beauty and protection of your new roof in less time with larger, 42" shingles, which allow for a faster install.

UP TO **150MPH**^{max}
wind resistance

Protect the investment in your home against high wind with an Atlas Wind Limited Warranty up to 150 mph.²

Scotchgard[™]
shingle protector

Maintain your home's appearance with a roof that looks beautiful for years by resisting the black streaks caused by algae.*

CLASS 4
impact resistance

Ask your insurance agent about discounts on your homeowners insurance when you install **UL 2218 Class 4 Impact Resistant** shingles.

To provide homeowners the most accurate representation of color options, several photo scans and house shots were utilized in numerous lighting conditions. Variations in lighting illustrates the color gradients on asphalt shingle roofs.

Color blends vary from shingle to shingle. Before installation, consult with your contractor and request to view the actual shingles being installed on your roof to ensure confidence in your final color selection.

StormMaster® Shake Shingles With Core4® Technology Are Designed To Withstand Nature's Extremes

Shingles are the first layer of defense, protecting your roof from extreme weather that can be dangerous to the people and things you hold dear. When you choose Atlas shingles with Core4® Technology, you can be sure that you are sheltering your family beneath the most durable shingle on the market today.

StormMaster® Shake shingles made with Core4® Technology feature a scientifically engineered asphalt core that is made to perform better, with increased consistency and reduced variability, extending the life of your roof.

UL 2218 Class 4 Impact Test

Standard Asphalt Products

Shingles with Core4® Technology

The test consists of simulating the speed and terminal velocity of a 2" hail stone falling from the sky. To meet Class 4 Impact criteria, the shingle must show no evidence of fractures or cracks on the back side.

#1 Rated in Hail Protection

Consumers deserve to have confidence that shingles labeled as impact-resistant live up to expectations. IBHS and its members recognized the growing problem of hail damage in large regions of the United States and have devoted years to field and lab research to develop a new test standard for impact resistance. To conduct testing, IBHS bought the major competing widely purchased impact-resistant shingles from standard distribution channels accessible to consumers, brought them to our lab, and tested them under scientifically replicated real-world conditions.

Atlas Designer Shingles featuring **Scotchgard™ Protector**

First Impressions That Last a Lifetime

Atlas StormMaster® Shake shingles feature Scotchgard™ Protector by 3M — a brand you know and trust.

This innovative technology, which includes copper-containing granules made with a proprietary 3M porous ceramic coating, allows copper ions to release slowly over time, helping to prevent the ugly black streaks caused by algae.

With StormMaster® Shake shingles, your roof will look newer longer, maintaining its beauty for years to come.

Illustration of a 3M copper roofing granule shows that the proprietary blend of 10% or more 3M copper-containing granules equals lasting protection against black streaks caused by algae.

Dreaming of a Home Redesign?

Get creative with the Atlas Roof Inspiration Center. In the Roof & Home Design Studio, you can upload photos of your home and swipe for different looks. With the Visual Product Selector, you can explore Atlas shingle styles, features, and colors to help you visualize and choose the perfect roof for your home.

Demand Peak Coverage

When you install an Atlas Signature Select® roofing system, all the components are designed for and backed by the industry's best warranty coverage.

Unlike many other roofing warranties that overpromise and underdeliver, Atlas packs value and assurance into an enhanced premium protection period, which includes non-prorated labor and materials, tear-off and disposal fees, coverage of the full Atlas product system, and transferability.

Increase your premium protection period by installing an Atlas Signature Select® Roofing System
